

## International Conference

# ATMOSPHERELESS SOLAR SYSTEM BODIES IN THE SPACE EXPLORATION ERA

June 18-22, 2018 Kharkiv, Ukraine

### MAIN TOPICS

Optics of the Moon

Planetary regolith: observations and simulations

Physical properties of asteroids and Transneptunian objects

Yarkovsky and YORP effects

Missions to small Solar system bodies

### Scientific Organizing Committee

I.N. Belskaya (Ukraine), chair  
M.A. Barucci (France)  
R. Binzel (USA)  
A. Cellino (Italy)  
R. Gil-Hutton (Argentina)  
T. Kwiatkowski (Poland)  
D. Lazzaro (Brazil)  
D.F. Lupishko (Ukraine)  
K. Muinonen (Finland)  
A. Rivkin (USA)  
D. Scheeres (USA)  
Y.G. Shkuratov (Ukraine)  
Sungsoo Kim (Korea Republic)  
G. Videen (USA)  
Fumi Yoshida (Japan)  
Hao Zhang (China)

### Local Organizing Committee

V.G. Kaydash (chair), V.G. Chiorny, A.A. Golubov,  
L.V. Gradyska, T.A. Hromakina, V.V. Korokhin,  
Y.N. Krugly, O.I. Mikhalchenko, A.V. Sergeev,  
I.G. Slyusarev, V.G. Shevchenko, M.A. Stepaniuk,  
S.F. Velichko, N.A. Vorobjeva

Organized by

Institute of Astronomy and Department of Astronomy and Space  
Informatics of V.N.Karazin Kharkiv National University

Ukrainian Astronomical Association
